PatchCLIP
Removable RJ45 Color Clip

Colour Coding using for PatchSee Patch cords
Technical Data Sheet

Product summary:

More flexibility to identify your network application cables for PATCHSEE intelligent patch cords product line.

- Removable clips to quickly and easily change an RJ-45 cable's identification system

- 16 colors to choose from for efficient cable recognition, complete identification of network applications, geographical zones, and more.

- Practical, cost-effective, and instant visual cable identification.

- Protects RJ-45 plug locking tab.

- Easier access to RJ-45 plugs simply by pressing the tab. Perfect for difficult conditions, places with high densities of RJ-45 ports, hard-to-reach areas, etc.

- Compatible with high density environments: the cable clip is aligned with the RJ-45 connector (no additional width or bulk under the RJ-45 plug)

Technical Data Sheet :

Material	PP (Polypropylene)
Composition	PP 55–85% + Antimony compound 3-6% + Flame retardant and other
Melting Point	165°C
Packaging	blister pack with 50 cable clips of the same color
Colour	16 colours available
Weight	Per Blister of 50 clips : 20g Per Clip : 0,4g
Blister dimensions	W x H x T = 8,6 cm x 10 cm x 2 cm
Cycle life	500
